Abstract - The Goal of research

The goal of the research presented in this thesis is to examine the role of the planets causing Autoimmune disease to a Native and to identify the problem much more in advance so that precautionary steps can be taken. We have studied 30 different charts of Natives suffering from Autoimmune diseases and were able to come to a certain conclusion. Other than planets Rashi's have also been put under consideration. Ayurveda plays a very important role and is related to Astrology hence we have also tried to see the affliction related to the vath, pitt and kauf in the native's chart. This study is based on the principles of Rishi Parashar.

Introduction

Human beings have suffered physically since the beginning of humanity. Medical system has also improved with the passage of time. However, the changes in the life style have also brought in more and more complicated diseases. In the ancient times, Astrology was used to diagnose diseases much before those could happen and also to take remedial measures to ward off these diseases. In this thesis an attempt has been made to analyse lagna chart of 30 natives who suffer from Autoimmune disease and see the repeated affliction of a Planet and Rashi in the chart.

The Ayurvedic and Unani practitioners of medicine treat their patients with the help of conventional type of medicines mostly prepared from plants, animals, Gems, Metals and other mineral products and derivatives of these products. Their system depends upon the condition of Vayu, Pitta and Kapha which they diagnose by feeling the pulse of the patient and comparing the beats/changes in the pulse rate conforming to a specific disease.

Needless to say identification and treatment of various diseases based on planetary combinations in an individual horoscope are really very affective. Mention of such diseases and their cures is found in classical books like Bhrigu Samhita, Nadi Shastra etc.

Classical books like Brihat parashar Hora Shastra , Sarvartha Chintamani, Jatak Parijat , Gadavali, Jatak Tatwa, Brihat Jatak, Saravali ,Jatak Alankar etc have lot of combinations to diagnose a variety of diseases including Tuberculosis, Cancer and even Aids but we hardly find anything written on Autoimmune diseases.

Scope of Research and Approach

The idea behind doing a research on autoimmune diseases was to identify the planets, Rashi's and Yogas responsible for the same. So that it can be identified much in advance so that required remedial actions could be taken into consideration. By studying and comparing the chart of 30 Natives we have tried to understand the common afflicted factors. And also have included the concept of pitt dosh from Ayurveda into it.

The Approach towards the subject included studying about each and every planet and Rashi in detail and see how strongly they are afflicted in a chart and then compare whether the phenomenon is getting repeated in most of the chart. An average percentage of the afflictions have been calculated and is presented in a graphical form for your understanding. All the charts have also been analysed and are attached at the end.

1.1 Astrology and Diseases

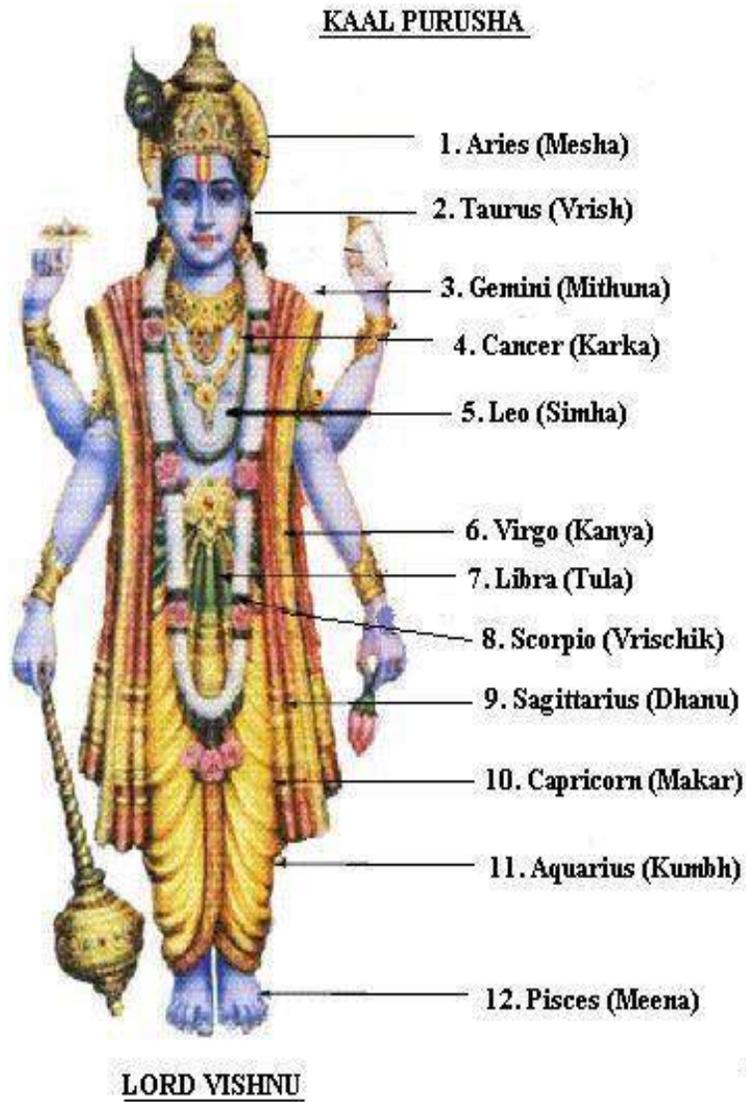

A horoscope is a chart of planetary positions at a specific time. When cast, it consists of three main parts.

- **The Houses**
- **The Signs**
- **The planets**

Every single body part is ruled by a sign, planet and a particular house out of 12 houses present.

The term 'Kalapurush is often used in astrology. The concept of Kalapurush involves imagining a supernatural human form, which is spread over the whole zodiac. The various signs and divisions of the zodiac thus fall in the various parts of the body of the kalapurusha and therefore, represent those parts. Here is a picture of Kalapurush and the body parts divided accordingly:

Diag1.1

Body parts of Kalapurusha

Table 1.1

S No.	Rashi(Sign)	Body Part
1.	Mesha	Head, Forehead ,eyes, skull,
2.	Vrishha	Face, nose, mouth, teeth, throat, neck, eyes.
3.	Mithuna	Shoulders, Arms, Larynx, Vocal cord, Ear, neck and upper chest
4.	Karka	Heart, Lungs, Lower respiratory system.
5.	Simha	Stomach(Upper abdomen), Heart, Back bones, Spline.
6.	Kanya	Umblical region, Kidneys, Intestines
7.	Tula	Lower abdomen, Reproductive organs
8.	Vrischika	External Genitalia, Rectum, Anus
9.	Dhanu	Thighs, Hips, Lower portion of spinal cord
10.	Makara	Knees, Knees, skin
11.	Kumbha	Legs, Ankles
12.	Meena	Feet, Toes, sole.

Significations of Houses

It is appropriate now to consider the significations of the various houses of the horoscope as relevant to medical astrology. It may be noted that the right half of the body is represented by houses 1 to 7 and the left half by Houses 7 to 1 of the horoscope.

Table 1.2

1.	First House	Head, Brain, body in general, Hair, Appearance, Skin, Sleep, freedom from ill health, longevity and old age, ability to perform work.
2.	Second house	Face, Eyes(right eye) Teeth, Tongue, Oral cavity, nose, Speech, nails, steadiness of the mind.
3.	Third House	Ears(right ear), throat , neck, shoulders, upper limbs, trachea, upper part of oesophagus, clavicles(collar bones), the part of the hand between thumb and the index finger, mental instability, physical fitness and physical growth.
4.	Fourth House	Chest, Lungs, heart, blood vessels of the throax, diaphragm, potent and effective medicine.
5.	Fifth House	Heart, Upper abdomen, stomach, liver, gall bladder, spleen, pancreas, mind, thinking and pregnancy
6.	Sixth House	Small Intestine, mesentery, appendix, part of the large intestine, kidney, upper ureter, diseases in general, ill health, wounds, mental agony, madness, phlegmatic illness, tuberculosis, tumours, disease of the eye, peptic ulcers.
7.	Seventh House	Large intestine and rectum, lower urinary tract, uterus, ovaries and testes, broad ligaments, prostate glands, groins, semen and sexual union.

8.	Eighth House	External genitalia, anal orifice, secondary sex characters, loss of a limb, affliction to face, chronic or incurable disease, longevity, severe mental anguish.
9.	Ninth House	Hips, thighs, femoral arteries, nourishment
10.	Tenth House	Knee joints, knee cap, popliteal fossa(the hollow behind the knee joint)
11.	Eleventh House	Legs, left ear, alternate house for disease and recovery from house.
12.	Twelfth House	Feet, left eye, disturbed sleep, mental imbalance, physical ailment, hospitalization, crippled limbs, death.

Signification Of Planets

In medical astrology, all the planets represent some or the other part of your body. During the dasha of planet the unfavourable transit, the native has to suffer from the health complications in the body part that is represented by the planet in question. Let's take a look at body parts and diseases related to different planets.

Sun Planet

Sun is considered to be the karaka of bones. It rules the stomach, right eye, heart, skin, head and joints. During the dasha of Sun the native has to suffer from problems related the body parts ruled by it. A weak Sun has a tendency to give health complications related to the body parts it rules. The native can also suffer from high fever, mental illnesses and relapse of previous diseases during the dasha and antardasha of Sun.

Moon Planet

Moon is considered to be the karaka of mind and heart. It rules Heart, lungs, left eye, breast, brain, blood, body fluids, tube feeding, intestinal, renal and lymphatic duct. Afflicted Moon can cause sleeplessness, lack of intelligence, asthma, and blood related problems. Problems related to diabetes, menstruation, appendix, lung disorders, cough and vomiting are also cause due to weak Moon.

Mars Planet

Blood, marrow, energy, neck, veins, genitals, neck, red blood cells, Anal, Female organs and body energy levels come under the rulership of Mars. Afflicted Mars give problems related to the

karaka elements. Apart from these, brain disorders, injuries, toxicity, painful eyes, itching, blood clotting, females genital diseases, weak bones, tumor, piles, blisters, knee problems etc are also caused due to weak Mars.

Mercury Planet

Mercury is the karaka of chest, nervous system, skin, navel, nose, gall bladder, nerves, lungs, tongue, arms, face and hair. Afflicted Mercury gives problems related to its karaka elements. It also give problems related to muscle and chests on being weakly placed in the horoscope. Due to afflicted Mercury, the native may also have to suffer from typhoid, madness, paralysis, seizure, ulcers, cholera, dizziness, etc.

Jupiter Planet

Jupiter is the karaka of thighs, fat, brain, liver, kidneys, lungs, ears, tongue, memory, spleen etc. Afflicted Jupiter in the horoscope give health complications related to its karaka elements. A weak Jupiter can also give diseases related to ear, diabetes, tongue, memory and pancreas. Jupiter plays part in giving diabetes to the native.

Venus Planet

Venus is the karaka of Face, light eyes, genitals, urine, semen, body, shine and luster, throat, and glands. The native may have to suffer from related diseases during Venus's dasha and antardasha. Venus is also the karak of vision. Thus, afflicted

Venus gives eye disorders too. Genital diseases, diseases of the throat, body glitter loss, impotence, fever, gonorrhoea, syphilis, rheumatism, blood loss, etc. are caused due to weak Venus.

Saturn Planet

Saturn is the karaka of Legs, joints bones, meat, muscles, organs, teeth, skin, hair, ears, knee etc. Afflicted Saturn in the horoscope give health complications related to its karaka elements. Physical weakness, muscle weakness, stomach pain, to be organ injury, to disease of the skin and feet, joints pain, blindness, hair be rugged, have mental concerns, to paralysis, deafness are caused due to weak Saturn.

Rahu Planet

Rahu is the karaka of legs, breathing, neck, lungs etc. Afflicted Rahu give problems related to breathing, lungs, ulcer, legs etc. it can also cause cataract, blisters, stammer, spleen, etc. Cancer is also caused due to Rahu.

Ketu Planet

Ketu is the karaka of abdomen and claws. It also give diseases related to lungs, fever etc. Insects in the intestine, ear problems, eye disorders, stomach pain, physical weakness, brain disorders etc. are also caused due to afflicted Ketu. Ketu also give mysterious diseases whose root cause cannot be determined.

Why Autoimmune diseases

Before I start with my study it's very important for me to explain why did I pick up this topic. With so many development in Medicines we humans have reached that phase in our life wherein we are able to cure most of the diseases which has helped us decrease our death rate. But there are diseases which we are still unable to identify completely either we know the symptoms but don't know how to treat them or the symptoms are so unclear that we are unable to reach the root cause. Most of the treatment for autoimmune diseases are steroids which unable to cure it permanently and are just a temporary arrangement to subside the symptoms for example in Psoriasis medicines are given to stop the scaling of skins wherein the root cause of this disease is the malfunction of our cells. Patients suffering from any kind of autoimmune disease are more prone to Cancer. Hence if we are able to identify at a very early stage that a native has a probability of suffering from autoimmune disease it will turn out to be a blessing for all of us. My next step would be to see if we can control it using Vedic chants and meditation.

About Autoimmune diseases

Our bodies have an immune system, which is a complex network of special cells and organs that defends the body from germs and other foreign invaders. At the core of the immune system is the ability to tell the difference between self and nonself: what's you and what's foreign. A flaw can make the body unable to tell the difference between self and nonself. When this happens, the body makes auto antibodies that attack normal cells by mistake. At the same time, special cells called regulatory T cells fail to do their job of keeping the immune system in line. The result is a misguided attack on your own body. This causes the damage we know as autoimmune disease. The body parts that are affected depend on the type of autoimmune disease. The cause is generally unknown. Some autoimmune diseases such as lupus run in families, and certain cases may be triggered by infections or other environmental factors.

Treatment depends on the type and severity of the condition. Non-steroidal anti-inflammatory drugs (NSAIDs) and immuno suppressants are often used. Intravenous Immunoglobulin may also occasionally be used. While treatment usually improves symptoms they do not typically cure the disease.

Out of trillions of people living on this earth About 24 million (7%) people just in the United States are affected by an autoimmune disease we have no such relevant data available to figure out how many in India are affected by this disease . Women are more commonly affected than men. Often they start during adulthood.

Types of Auto Immune diseases

An autoimmune disease is a disease where your body produces antibodies, proteins that attack your own tissues, organs, glands, and cells. This attack leads to inflammation, deterioration, and in some cases, partial or total destruction of the target of the antibodies. The following are some of the more common autoimmune diseases.

Rheumatoid Arthritis

Rheumatoid arthritis (RA) is a painful, disabling condition that usually targets the synovium or membrane covering the joints in your hands and feet.

Symptoms

While the joints of your hands or feet wear with age, the symptoms of RA are different. Instead of just aches, you may experience swelling, stiffness, and even deformity and dysfunction of the joints that are under attack from your immune system.

Conditions sometimes associated with RA are sjogren's , a condition characterized by dry eyes and mouth, and psoriasis, which causes dry, scaling skin. Psoriasis is a common condition in the United States, affecting about two out of 100 people. Because it has a genetic component, psoriasis often affects related family members.

Treatment of rheumatoid arthritis is focused on reducing or controlling the symptoms to reduce discomfort and damage to your joints. This treatment could take the form of anti-inflammatory or immune-suppressing drugs.

Inflammatory Bowel Diseases

Inflammatory bowel diseases (IBD) are caused by autoimmune dysfunctions, including Crohn's disease and ulcerative colitis. With these conditions, the immune system mistakenly attacks cells in the intestine or gut. About one in 500 Americans suffer from IBD (no data available for India).

Symptoms of the chronic intestinal inflammation caused by IBD include nausea, diarrhea, abdominal cramps, vomiting, and pain. High-dose corticosteroids like prednisone are used to treat IBD but come with troubling side effects.

Long-term use of prednisone can lead to thinning and breaking of bones, and a higher incidence of infection. Surgical removal of the lower intestine (colon) eliminates ulcerative colitis and increased risk of colon cancer.

Systemic Lupus Erythematosus

Attacking skin, joints, kidneys, and other organs, systemic lupus erythematosus (SLE) is an autoimmune disease that effects about one in every 2000 Americans. Prevalence is higher in young, African-American women. Because of its broad symptoms, lupus is often difficult to diagnose quickly.

The fatigue, rashes, and pain of lupus are usually treated with anti-inflammatory medications. Like with IBD, close monitoring is

needed to avoid serious side effects of drugs taken to relieve or halt symptoms.

Psoriasis

The itchy, red patches that form on those with psoriasis are caused by dysfunction the immune system that causes skin cells to grow rapidly. There are several forms of psoriasis, the most common is plaque psoriasis, which is a buildup of skin cells that cause patches on the scalp, knees, elbows, and back. About 7.5 million people suffer from psoriasis.

Psoriasis is the most common autoimmune disease, with a strong genetic component, and effects men and women equally. There are several treatment options for psoriasis, depending on severity, including topical drugs, medications, and light therapy. It is important to screen for, and treat, a related form of arthritis, called psoriatic arthritis.

Scleroderma

About 300,000 Americans suffer scleroderma, which is a hardening of the skin, connective tissues, and veins. The experience of scleroderma, more than other autoimmune diseases, is highly individual. Many patients with scleroderma also suffer from Raynaud's syndrome, a condition involving sensitivity to cold, and spasms and ulcers on the toes and fingertips.

More women than men suffer from scleroderma. The genetic component of the disease is considered to confer susceptibility, rather than directly causing the disease. There are a number of treatment options, depending on the expression of the disease in each individual.

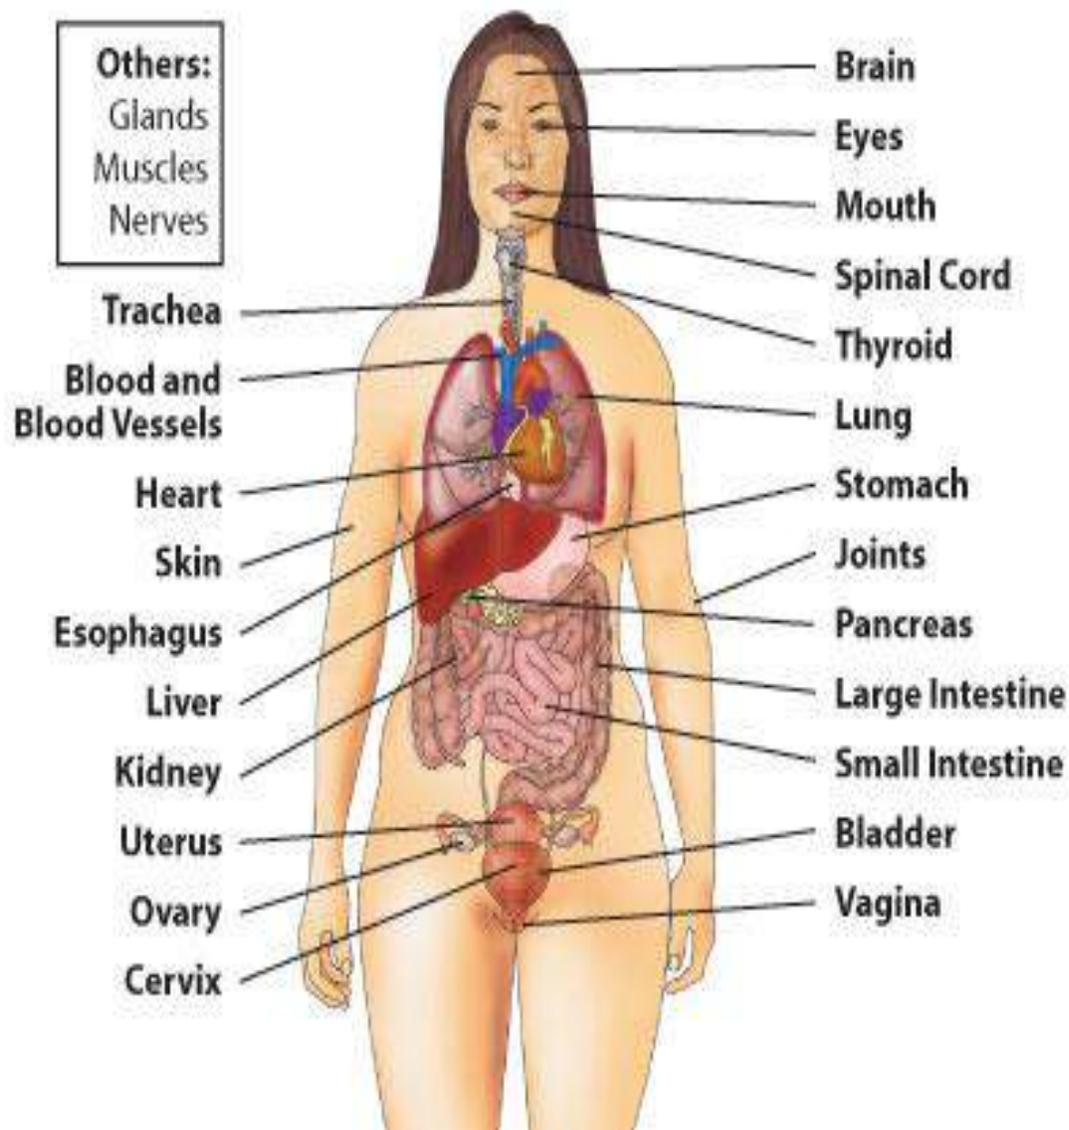

Autoimmune Thyroid Diseases

Affecting as many as 10 % of the population, destruction, or stimulation, of thyroid tissue by the immune system by antibodies causes Hashimoto's thyroiditis(hypothyroidism), and Graves' disease (hyperthyroidism).

Symptoms of both these conditions are nonspecific and can develop quickly, or over time. Some symptoms of these diseases include nervousness, fatigue, intolerance to cold or heat, changes in hair, weight gain or loss. The diseases are also more prevalent in families with a history of autoimmune disease. The vagaries of symptoms may cause people to delay seeing their doctor, but a diagnosis of thyroid conditions can be made with a clinical examination, blood tests, and imaging tests. For patients with underactive thyroid, thyroid hormone replacement medication is a good option. Care and monitoring are needed to ensure dosing, and products used, are optimized for each individual. Treatment of a hyperactive thyroid includes lifetime use of antithyroid drugs or destruction of the thyroid gland through surgery or radioactive iodine (RAI) ablation.

Body Parts That Can Be Affected by Autoimmune Diseases

Involvement of planets in Autoimmune disease charts

As per classical books here are some of the factors which can be held responsible for any disease which is related to immunity/ malfunction of cells/ blood.

Sun- IMMUNITY

The most important planet which the classical books talk about when it comes to immunity is Sun. Sun is a symbol of spirit. It is considered as soul of Kalapurusha. The Sun gives us vitality and the power of resistance and immunity. It rules our consciousness. It gives us force and will power and makes one determined and decisive. When Sun is positive in a natives chart it gives boldness, Fame, position, good health, vitality, good temperament and above all immunity against all health problems. It is responsible for our physical makeup - the body's constitution. An afflicted Sun is responsible for headaches, baldness, fever and pains, burns, inflammation of liver gland bladder, heart trouble and many more diseases but the most important role of Sun is provide the Native with Immunity, Immunity against all sort of health problems. If immunity is good a native will be able to heal faster and the disease will not be able to effect him/her for a longer period. The problem with autoimmune disease is, there is no cure and it's not a any foreign

body inside you which causes the problem , this happens due to a faulty immune system. Hence we tried to look for afflicted Sun in all the charts.

Moon - Blood

Moon controls fluids in the body including the blood. In the body millions of new cells are formed every day and they replace the old worn out cells. Blood is a body fluid in humans that delivers necessary substances such as nutrients and oxygen to the cells and transports metabolic waste products away from those same cells. Hence Moons strength or weakness plays a very important role in keeping a body healthy. Other than the physical part of it an afflicted moon disturbs the stability and soundness of mind of the individual. It rules over fluids in the body, besides also representing the mind, the blood and the left eye. It stands for psychiatric problems, mental abbreation , skin problems, increase in sleep and general inertia.

Phlegmatic disorders, tuberculosis, pleurisy, dropsy anaemias, serious effusions in the body, blood poisoning, jaundice are all caused by a afflicted moon. The moon in collaboration with mars controls the menstrual cycle of women. A strong Moon gives you a strong mind and positive thought process which has the capability of keeping the native away from any chronic disease.

Hence we have tried to see Affliction of moon in all the charts.

MARS - Cells

Mars is considered very important in health context. Your health will fully depend on Mars. It has been seen that a Native has to face many health problems if the Mars is weak or afflicted in a chart. Mars rules over the cells, bone marrow, bile, haemoglobin, musculature. Mars also signifies blood disorders, tissue disruptions, biliary inflammation, poisoning, diseases caused by excessive heat, itching of skin etc. other than all this Mars also gives diseases and disorders related to eyes and stomach when either it affects second or fifth house of the horoscope or it is not favourable in the second or fifth house. Hence we have tried to figure out if there is any affliction caused to lagna or is Mars himself is afflicted.

Mercury -Skin

A weak representation of the Mercury Planet in the native chart is responsible for asthma, disease of respiratory canal, psychic disease, insomnia, nervous breakdown, disorders of intestine and above all it rules skin and in most of the cases of autoimmune diseases it has been seen that the skin does get affected.

Lagna

In Vedic Astrology Jyotiṣa, the Lagna (Sanskrit लग्न) or Ascendant, is the first moment of contact between the soul and its new life on earth. The head and the face are the main parts of the body denoted by the first house. It involves the complexion, cranium, forehead, brain, hair, pituitary glands, etc.

If the first house in our natal chart is weak then it results in a sickly constitution, thereby leading to headache, mental tension, paralysis, giddiness, wounds, scars, erratic activity of endocrine glands, derangement, brain fever, stupidity, nose bleeding and overall Immunity gets affected.

Hence we have tried to figure out if the lagna lords of the Native s(autoimmune charts) has Water planets as lagna lord

Pitt Dosh

Pitta is made up of the two elements fire and water. The most revered ayurvedic text, the Charaka Samhita, defines the characteristics of Pitta dosha: hot and a little oily (sahasnehamushnam); sharp, burning (tikshnam); liquid and acidic (dravamlam); always flowing in an unbounded manner (saram); pungent and sharp (katuhu). Pitta contains fire, but it also contains water. It is the source of the flame, but not the

flame itself. Compare Pitta to gasoline – it is not hot to the touch, but it can be the source of flames. is made up of the two elements fire and water. The most revered ayurvedic text, the Charaka Samhita, defines the characteristics of Pitta dosha: hot and a little oily (sahasnehamushnam); sharp, burning (tikshnam); liquid and acidic (dravamlam); always flowing in an unbounded manner (saram); pungent and sharp (katuhu). Pitta contains fire, but it also contains water. It is the source of the flame, but not the flame itself. Compare Pitta to gasoline – it is not hot to the touch, but it can be the source of flames. As per ayurveda a skin disease happens due to imbalance of Fire and water element and are mostly pitta in dosha.

Hence we will try to figure out whether in the charts Ma/Su is aspecting or placed in the lagna. Mars being a fiery planet making a relation with a watery planet gives pitt dosh.

Airy Signs

The airy signs in astrology are represented by Gemini, Libra and Aquarius. The most important element which keeps us alive is air. To keep a body alive it needs air. Our body needs oxygen to develop new cells hence it won't be wrong to say that these signs will play an important role in any cell related disease. Hence while considering the chart we have also tried to look for airy signs and there relation with 6th, 8th and 12th houses. Stiffness of joints as

in arthritis(one of the type of autoimmune disease), flatulence, asthma(symptom in all auto immune disease) and nervous disorder usually manifest when there is excess of airy element. Lack of Air element may lead to difficulties in perception, tiredness, shortness of breath and lethargic movement , all these are actually symptoms of autoimmune disease. Hence we cannot wave off the possibility of relation between airy sign and autoimmune diseases.

Triksthana houses- 6th ,8th and 12th

Mantareswara in his classical book phaladeepika says, Matters pertaining to diseases should be predicted from the 6th, 8th and 12th house in a chart.

Sixth house:

The Sixth House is commonly referred to as the house of health. Implicit in maintaining good health is the ability to cope in the face of adversity, and this theme rings truest in the sixth house. Looking at the 6th lord we can predict which body part of the native is under affliction. A protected sixth house gives less disease to a person.

Eighth House

Along with 6th, 8th house is also considered to be malefic. 8th house in Vedic astrology rules over death , longevity and mental health. It has a direct impact upon one's life span and the kind of death you may have. It could be natural, peaceful, accident by fire or through some chronic disease. Hence along with 6th , 8th also plays a very important role.

Twelfth House

First House represents the beginning , the birth and 12th house in Vedic astrology , being the last house completes the life cycle and represents the endings. This is the house of detachment . When afflicted this house leads to hospitalization, which is an important factor to be considered.

Data

For the research we have collected the details of 30 patients suffering autoimmune diseases, the detailed particulars are provided in the annexure to the report.

The annexure contain the birth charts, analysis of factors responsible for the disease namely;

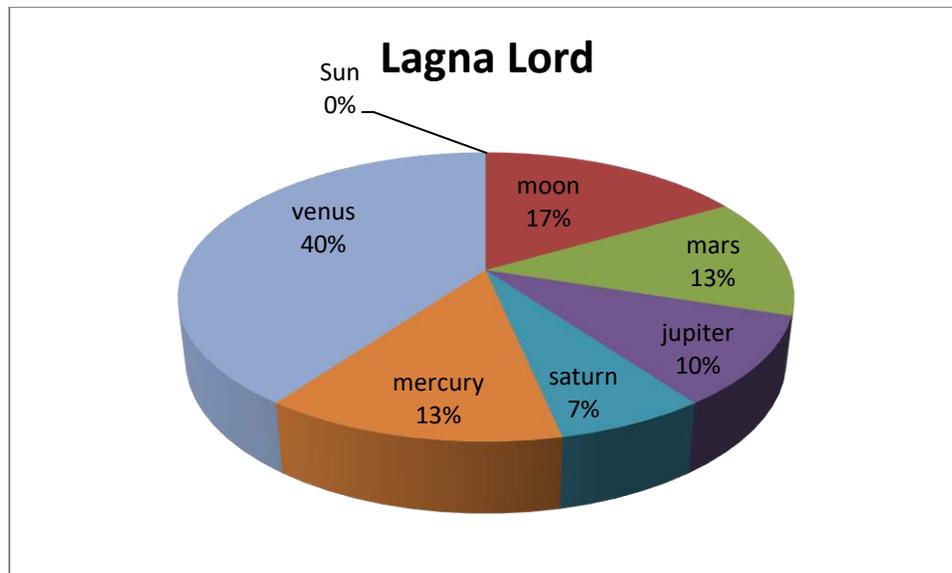

- 1. Affliction of lagna**
- 2. Affliction of sun**
- 3. Presence of Pitt Dosh**
- 4. Role of Trik Houses etc....**

Ananalysis

After analyzing all the 30 charts, where in we have tried to figure out a relation between what is told in classical books Ref to page no.22 , we have come to the conclusion that;

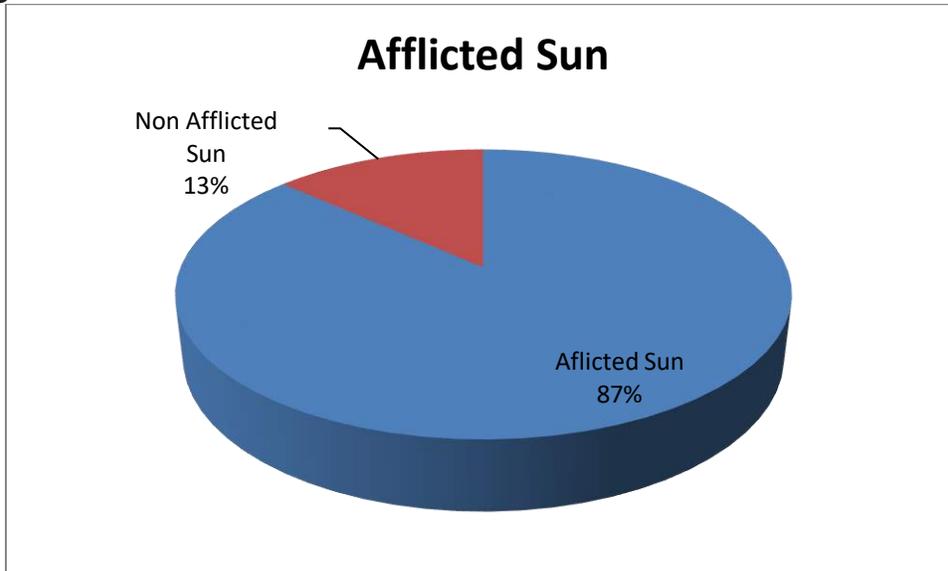

1. More than 60% of the charts have watery planet as there lagna lord (either Venus or Moon).

Diag 1.3

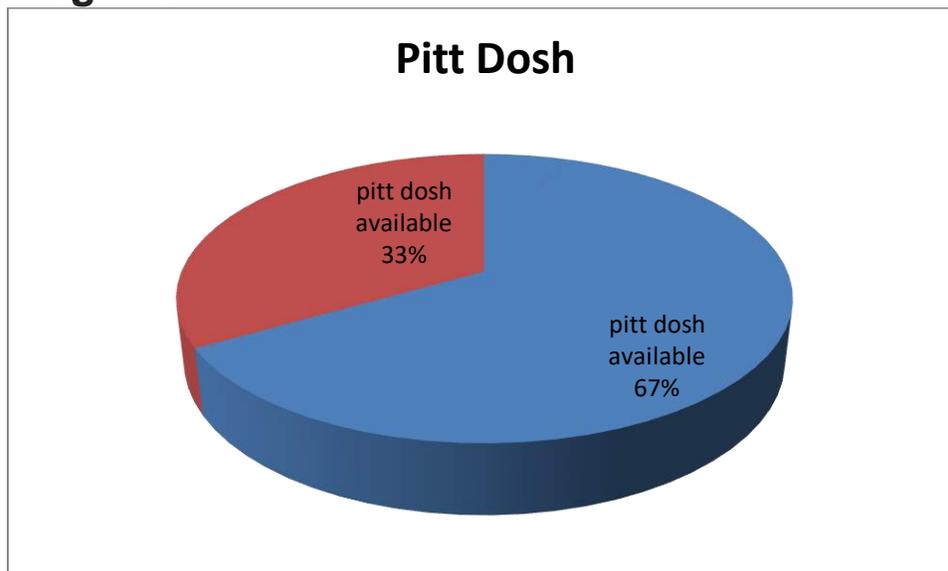

2. In more than 87% of the charts Sun is afflicted by 6th, 8th or 12th house or their respective lords.

Diag: 1.4

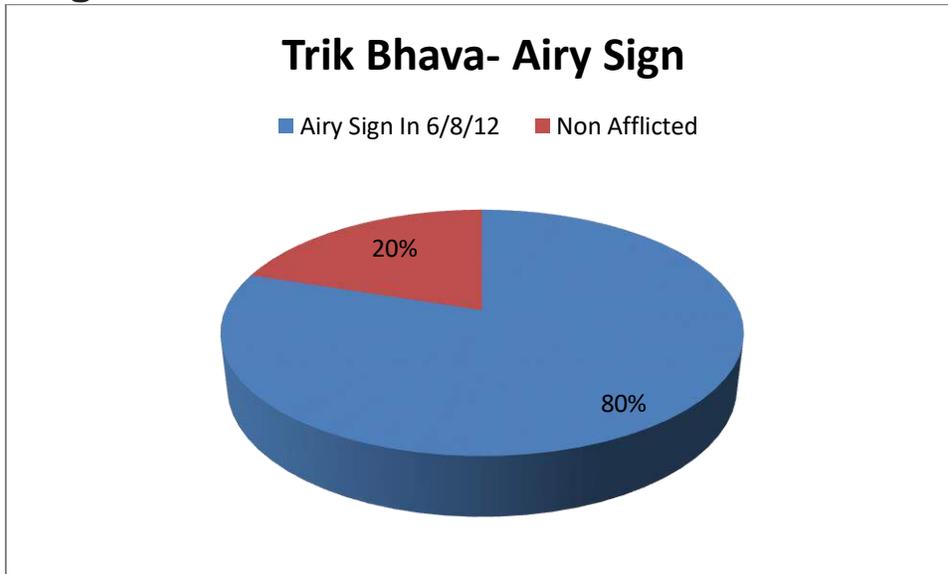

3. Pitt dosh(ref to pg 25) is available in 80% of the charts.

Diag: 1.5

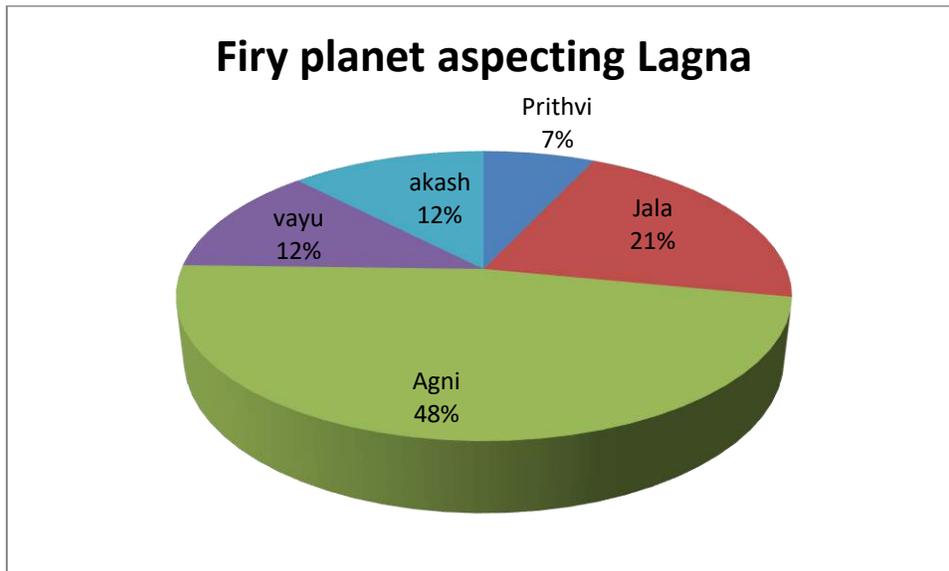

4. Airy Signs are found in trik bhavas which is 6th, 8th and 12th in 80% of the cases.

Diag 1.6

5. 48% of the lagna are aspected by fiery planets(Sun and Mars)

Diag- 1.7

Conclusion

In this research study I wanted to see the impact of the following factors in the chart of Autoimmune patients. And from the analysis of 30 involved charts taken of Autoimmune patients the following factors have been Noted;

- If the first house in our natal chart is weak then it results in a sickly constitution, thereby leading to health problems and overall Immunity loss. 57% charts have Venus or Moon being watery planet they happen to be the Lagna lord and in 48% charts Mars/Sun being fiery planet are afflicting the lagnas owned by watery planets(Moon, Venus)
- In 87% of the cases we have seen that the Sun being the karak of immunity either is placed in trik Bhavas or afflicted by lords of Trik Bhavas.
- In Ayurveda its said Water mixed with Fire gives Pitt Dosh, In 67% charts it is seen that either the fiery planets(Sun/Mars) are placed in Water sign(cancer, scorpio or pisces) or water planets(Mo, Ve) are placed in Fiery Signs(Aries,leo or sagittarius)
- The airy signs in astrology are represented by Gemini, Libra and Aquarius. Our body needs oxygen to develop new cells hence we tried to look for a relation between trik bhava which according to Phaladeepika are the most important houses for analysing disease in a natives body. In 80% of the charts it has been seen that the airy signs occupy one of the Trik Bhava.
